10 Ways to Make Reading Fun

Learning to read can be a challenging adventure for some children. It seems that everyone from a child's teacher to Mom and Dad and even Grandma is excited and waiting for the child to learn to read. All the pressure and expectations from the adults can sure put a damper on the excitement for the child. This loss of excitement can lead to a child who never develops the desire to read. If we, as parents, can find ways to make reading fun and enjoyable, our children will be more willing to sit down and read a book, either by themselves or together with us.

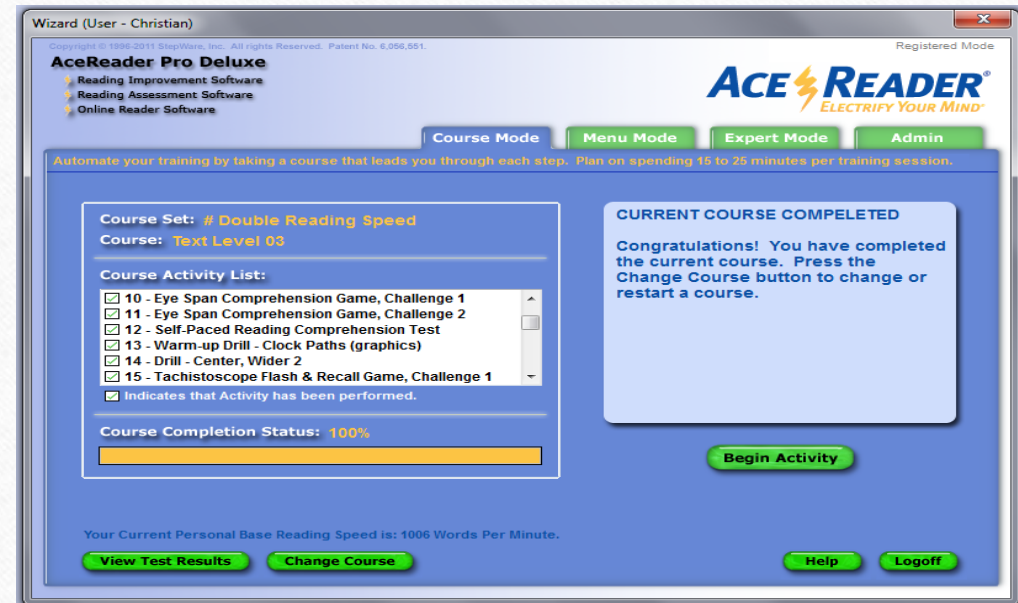

Here are a few ideas you can do to make reading fun for your child.
