A Letter from the Interim President-Elect September 2019

NOSS exists to assist education professionals in making a positive

difference in the lives of students.

Dear Members,

To enhance communication, connectivity, and professional development among members who share similar professional interests, NOSS supports Networks in nine (soon to be ten) areas. We encourage you to get involved in and take advantage of the NOSS Networks. They provide you opportunities to learn more about particular areas of our discipline, to meet and work with professionals in those areas, and to create and share resources with the membership. Join today and ask the Network Chair how you can assist the Network in meeting its goals.

Your membership in NOSS includes participation in any and all Networks free of charge. You can join Networks through the membership portal of the NOSS website (<https://thenoss.org/>), or by contacting the NOSS Business Office.

The current Network list is given below. In the near future, we hope to offer a Network for those interested/serving in the area of student career and vocational planning.
