Colleagues,

I want to tell you a story about an educator who, like all of us, was dedicated to student success.

Actually, the story is pretty long, so instead I'll keep it very brief: Dr. Robert McCabe, former President of Miami Dade College, MacArthur Fellow, and recipient of many, many prestigious awards, was a champion of higher education, particularly for those students who needed a little extra help achieving their academic and professional goals.

[Subscribe](#)[Past Issues](#)[Translate ▼](#)

and he did everything he could to champion it, its practitioners, and its students.

Find out more about this amazing educator and the work he did [here](#).

I'm thinking about Dr. McCabe this month because for the past five years, NOSS has honored him by offering a small, one day annual conference for our members and friends. The 5th Annual McCabe Conference will be virtual this year and at an affordable price so everyone can plan to attend and learn along with us.

I invite you to join us this month in celebrating the work of Dr. McCabe and learning new and innovative ways to support our students' success. More information can be found [here](#).

As I tell my students at the end of class every day, go out into the world and do good things!

Meredith
